THE VESSEL

A *twin-diesel pilothouse cruiser* built for Northwest cruising — galley, two berths and a generator.

Journey is a 2005 SeaSport Voyager 3000 lying in Anacortes, Washington. The Voyager is a true Northwest-style pilothouse cruiser — a hard-chined fiberglass planing hull, a raised wheelhouse with a reverse-raked windshield, and a cockpit you can actually fish from.

She was repowered in 2023 with twin Volvo Penta D4-300 diesels, 300hp each, on Volvo duoprop outdrives, showing 853 hours on each engine. An Entec 4,200-watt diesel generator in a sound shield, an 11-gallon water heater, and a Fireboy automatic fire-suppression system in the engine compartment round out the systems.

The layout runs from a double V-berth forward, with a head compartment to port and a second double berth tucked beneath the wheelhouse, up to a starboard helm with a pilot seat opposite. Aft is the main cabin with a starboard galley and a convertible dinette, then the cockpit with a transom door, a second control station, a stainless radar arch and a tilt davit at the stern.

VESSEL HIGHLIGHTS

— SeaSport Voyager 3000 pilothouse cruiser	— Twin Volvo Penta D4-300 diesels, 300hp each — 2023 repower, 853/853 hours
— Volvo duoprop outdrives	— Entec 4,200W diesel generator, sound shield
— Fireboy automatic engine-room fire suppression	— Two double berths + enclosed head
— Galley & convertible dinette	— Cockpit control station & transom door
— Stainless radar arch & tilt davit	— 11-gallon water heater
— 31' LOA · 10'6" beam · 33" draft	— Lying Anacortes, WA
