THE VESSEL

An *offshore-ready aluminum* pilothouse with twin Mercury 300s and joystick docking.

Kudu is a KingFisher 3425 GFX Offshore lying in Seattle, Washington. KingFisher builds its welded-aluminum boats for the conditions the Pacific Northwest actually serves up, and the 3425 GFX Offshore is the fully enclosed, go-anywhere version: an enclosed pilothouse up front, a big self-draining cockpit aft, and an aluminum hull that shrugs off logs, docks and crab-pot season.

Power is a pair of Mercury 300hp outboards showing approximately 320 hours, with a 40hp Mercury kicker for trolling. Handling is Mercury's Optimus joystick system with Skyhook — the boat holds its position at the push of a button, which makes single-handed docking, waiting for a bridge, or working a drift dramatically easier.

Inside, the pilothouse is finished in warm wood with a forward helm, companion seating, a dinette, and a galley with a two-burner stovetop, microwave and bar fridge. Forward there is a berth and a day head with shower; the boat sleeps four comfortably. Navigation is a Garmin chartplotter with VHF, and there is a Bluetooth stereo for the long runs.

VESSEL HIGHLIGHTS

— KingFisher 3425 GFX Offshore — welded aluminum	— Twin Mercury 300hp outboards — approx. 320 hours
— 40hp Mercury trolling motor	— Optimus joystick drive with Skyhook
— Garmin chartplotter & VHF radio	— Bluetooth stereo system
— Enclosed pilothouse with dinette	— Galley: 2-burner stovetop, microwave, bar fridge
— Day head & shower	— Sleeps 4 comfortably
— 35'1" LOA · 10' beam · GRT 8	— Lying Seattle, WA
