THE VESSEL

A *capable center cockpit* cruiser — built for short-handed bluewater passages.

The Hunter Passage 42 is one of the most capable center cockpit cruisers ever produced — two private staterooms, two heads, a 14-foot beam, and a B&R masthead rig designed for short-handed sailing. This 1994 example, Playa Linda, has been actively cruised on Pacific Northwest waters and is ready for her next passage.

Below, warm teak and holly soles run throughout with 6'6" headroom. A spacious salon with an L-shaped settee and convertible dining opens to a fully equipped galley with refrigerator and stove. The forward stateroom carries a V-berth and private head with shower; the aft owner's cabin a queen berth with en-suite head, tub, and shower.

On deck, a protected center cockpit under dodger and bimini keeps the crew comfortable, with all lines led aft, a roller-furling jib, and self-tailing winches for easy handling. Solar panels on the arch cut shore-power dependence, and a walk-through transom with swim platform makes boarding effortless. Service records available; sea trial welcome.

VESSEL HIGHLIGHTS

— Two private staterooms, two heads	— Yanmar 4JH2TE, 62hp diesel — direct drive
— B&R masthead sloop — 949 sq ft sail area	— 14' beam, wing keel, 4.9' draft
— Roller-furling jib, all lines led aft	— Self-tailing winches, dodger & bimini
— Solar array on stern arch	— Teak & holly soles, 6'6" headroom
— Fully equipped galley — fridge & stove	— Aft owner's cabin — queen, en-suite tub & shower
— Walk-through transom, swim platform	— 70 gal fuel · 150 gal water · ~900 engine hours
